## OH2 VEIN THERAPIES

OH2 will painlessly remove your spider and varicose veins with state-of-the-art technologies and procedures administered by our trusted Board Certified surgeons, Dr. Randy Rudderman and Dr. Darrell Caudill. Our therapies remove unsightly veins that may cause pain, discomfort, or fatigue. Relax in our serene green environment where we treat your spider and varicose veins in just one hour. Return to daily activities following your procedure.

### Ultrasound Duplex Scanning

We utilize Ultrasound scanning as an essential tool for accurate diagnosis and treatment of deep and superficial venous problems. Vein Viewer, our state-of-the-art infrared technology, enhances accuracy of superficial sclerotherapy.

### Spider & Varicose Vein Sclerotherapy

Treats visible spider and varicose veins by injecting sclerosant to shrink and close off veins.

### Ambulatory Phlebectomy

Removes large visible varicose veins through fine needle holes. Leaves an imperceptible puncture mark, requires no stitches.

### Ultrasound Guided Sclerotherapy

This technique uses ultrasound technology to precisely guide injections into veins that cannot be seen on the surface. Extremely effective in delivering the sclerosing solution to the source of the venous disease.

### Endovenous Laser Ablation

FDA - approved technology using thin laser fibers and ultrasound guidance that delivers energy to diseased veins. Our physicians focus on the greater saphenous vein and major tributaries including lesser saphenous and perforator veins. Laser energy immediately shuts down the diseased vein thereby rerouting blood flow to your healthy veins.

### Hand Sclerotherapy & Ambulatory Phlebectomy

Reduces the signs of hand aging including brown spots and unsightly veins. Juvaderm fillers can be used to revitalize the hands' youthful supple appearance.

## OH2 LASER TREATMENTS

We're proud to offer elōs™, the first and only technology that uses combined energies to effectively and gently restore and rejuvenate the appearance of your skin. Unlike laser and light based technology which only use one energy source, elōs™ Technology combines light and radio frequency energies to achieve superior results without downtime.

### OH2 Wrinkle Reduction

Smooth and tone skin using elōs™ Technology. Precisely directs heat to the connective tissue within the targeted treatment area. This stimulates collagen production reducing mild to moderate wrinkles.

### OH2 Advanced Photo Facial

Safely and comfortably fade the appearance of rosacea, spider veins, skin imperfections caused by sun damage, age spots and uneven skin tones.

### OH2 Skin Tightening

This gentle treatment features revolutionary elōs™ Technology that gives skin a more youthful, tightened, and lifted appearance with no downtime.

### OH2 Laser Hair Removal

Choosing a solution for hair removal was once a confusing and difficult decision. elōs™ Technology has changed everything. Safely and effectively remove unwanted hair with exceptional results.

### OH2 Body Contour Treatment

The only FDA cleared treatment for contouring, shaping, and cellulite reduction. Safely and effectively reduce the appearance of cellulite without downtime or significant discomfort.

### Injectables

OH2 offers Botox and Juvaderm injectables. Please call for pricing.

### Latisse

Guaranteed to lengthen, thicken and darken your eyelashes in just four weeks. FDA approved.

## OH2 SIGNATURE FACIALS

OH2 Signature Facials are customized to address your individual skin care needs. Our Anti-Oxidant infused products contain the highest concentrations of active ingredients to gently exfoliate, nourish and hydrate your skin. Your Clinical Esthetician will work with you to design a personalized OH2 Treatment plan to help you achieve optimal results.

### OH2 Red Carpet Treatment

Have a special event to attend? This is the ultimate facial for Red Carpet results. Experience an immediate lifting and illuminating effect resulting in a more youthful appearance with no downtime.

Includes: selected peel, Skin Tightening Treatment, selected mask, relaxing shoulder massage and makeup application.
